

MAE EYE HEALTH SERIES — iReason

THE SUPERFOOD FOR VISION

Tagline: A Reason To Love Your Eyes
Formulated In USA

Unlike ordinary eye care products on the market, which usually contain no more than 10mg of lutein and are insufficient for the demands of today's digital age, especially for those who use electronic devices extensively.

MAE iReason not only contains the high-quality patented ingredients FLORAGLO® LUTEIN and LUTEMAX 2020 (LUTEIN & ZEAXANTHIN), but it also delivers more than 10mg of lutein and more than 2mg of zeaxanthin per sachet. In contrast to ordinary eye care products that might require 2-3 servings, just one sachet of MAE iReason is sufficient to meet the daily needs of adults to filter out blue light damage.

Moreover, the formula is enhanced with four other major patented/trademarked ingredients, providing comprehensive benefits for the eyes, including promoting blood circulation, antioxidation, relieving eye fatigue, and effectively improving vision performance.

MAE iReason — For Complete Eye Nutrition ✨
